# Dr. Stuart Chalew to Present at the Dean's Research Seminar

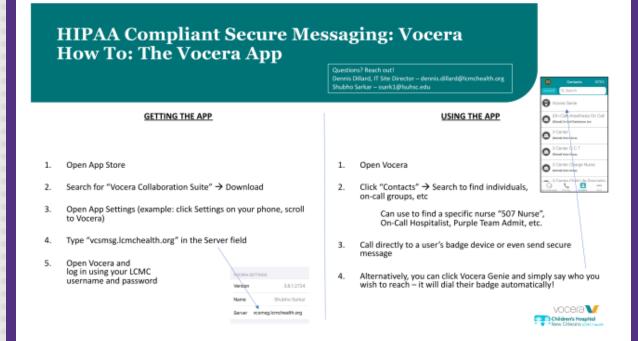

Dr. Stuart Chalew will present "Syndrome F: The Role of the Hypothalamic-Pituitary-Adrenal Axis in Pediatric Obesity and Type 2 Diabetes" at the Dean's Research Seminar tomorrow, Wednesday, November 11 at 11:00am. (information)

Zoom Link, Meeting ID: 926 0375 4037, Passcode: 415974

To access the lecture and receive CME credit, each participant must use the link to join the Zoom meeting. When prompted to sign in, participants must use

their professional LSUHSC/School/Hospital email address as this is the only acceptable method CME uses to record attendance. To change your name to your professional email address after entering the conference, click on the three dots in your personal window and choose "rename."

Bye-bye Pagers, Hello Vocera

CHNOLA will start transitioning from pagers to using Vocera for HIPAA compliant secure messaging. We plan on having the CHPA teams start the transition, likely in the coming weeks. This is information on how to download the app on your phone to be able to communicate with others using the app and anyone using a Vocera badge at CHNOLA (click here for a pdf version). All Medical Staff here at the hospital should be able to log in with their LCMC credentials – if you are having any problems, please contact Shubho Sarkar at <a href="mailto:ssark1@lsuhsc.edu">ssark1@lsuhsc.edu</a>, or Dennis Dillard at <a href="mailto:dennis.dillard@lcmchealth.org">dennis.dillard@lcmchealth.org</a>.

## Reminder from Assistant Vice Chancellor for Information Technology Regarding Use of Non-LSUHSC Email

We have recently seen a significant increase in compromised accounts being configured to automatically forward mail to external and potentially malicious email addresses. This morning we learned of a possible data breach related to this issue, although we are still working to identify the extent to which LSUHSC may have been impacted, if at all. To protect Office 365 mail clients, Microsoft recently sent an announcement about their own plans to disable autoforwarding. In accordance with CM-42, which states that "All users of the SYSTEM IT infrastructure shall NOT: Use non-LSUHSC e-mail to conduct official LSUHSC business unless authorized by the Chancellor," as well as our compliance training mandating that users not automatically forward mail externally without authorization, external auto-forwarding was blocked for all accounts effective immediately. We thank you for your understanding.

## **FACULTY DEVELOPMENT**

New video monthly

### **November Video: Zoom Tips for Teachers**

In this season of Thanksgiving, I'm thankful for our amazing faculty and our dedication to excellence in education! This is a very short (under 3 minutes!) video with 10 quick tips for ZOOM. Most of us are attending lots of Zoom meetings and teaching sessions, so this month and for a few to come let's use this space to focus on improving our experience and that of our learners.

## **DIVERSITY, EQUITY, & INCLUSION**

This new section of Tuesday Tidbits will highlight Diversity, Equity, and Inclusion within our department as well as outline events, workshops and lecture series available to faculty, staff and trainees.

Pediatrics Faculty Needed to Participate in Faculty Development Sessions

LSUHSC's Health Equity Group along with several basic science faculty are hosting faculty development sessions via Zoom on the below topics:

- Unconscious bias/Implicit bias
- Microaggressions
- Cultural awareness
- Equity vs. Equality
- Inclusivity

Dr. English needs a head count prior to the events so please email her at <a href="mailto:rengli@lsuhsc.edu">rengli@lsuhsc.edu</a> if you are interested.

# Webinar Series: The Impact of Skin Color and Ethnicity on Clinical Diagnosis and Research

NEJM Group Education and Applied Knowledge is collaborating with the Skin of Color Society Foundation (a nonprofit with a mission of education, mentoring, and research in skin of color) and VisualDx (the leading visual clinical decision support system) on a series of virtual panel discussions that call attention to health disparities and structural racism in medicine. The free, four-part webinar series, The Impact of Skin Color and Ethnicity on Clinical Diagnosis and Research, will delve into longstanding problems in education, research, and patient care, and will introduce ways to improve outcomes in marginalized patients. Sessions include:

- 1. "Hair Disorders in People of Color," Thursday, November 12 at 1:00 pm ET: Focused on the external and systemic diseases that can cause hair loss, and the need for physicians to understand the effect of ethnicity on the significance and cultural meaning of hair loss to better treat this critical problem. Panelists include Ncoza Dlova, MBChB, FCDerm, PhD and Andrew F. Alexis, MD, MPH; the discussion will be moderated by Amy McMichael, MD.
- 2. "Pigmentary Disorders and Keloids," Wednesday, November 18 at 1:00 pm ET: Focused on sharing the latest research and treatment options on the breadth of pigmentary disorders and how these are often signs of systemic disease, causing serious psychological and social ramifications. Panelists include Seemal R. Desai, MD, FAAD, and Donald A. Glass II, MD, PhD; the discussion will be moderated by Pearl E. Grimes, MD.
- 3. "COVID-19 Comorbidities and Cutaneous Manifestations of Systemic Diseases in Adults and Children," Wednesday, December 2 at 1:00 pm ET: Focused on the challenges of recognizing systemic diseases in melanin-rich skin types, and using skin signs of Covid-19 morbidities to demonstrate the need to improve diagnostic accuracy and efficiency in patients of color. Panelists include Lynn McKinley-Grant, MD, FAAD, Candrice R. Heath, MD, and Ginette A. Okoye, MD.
