

DOM NEWS BLAST

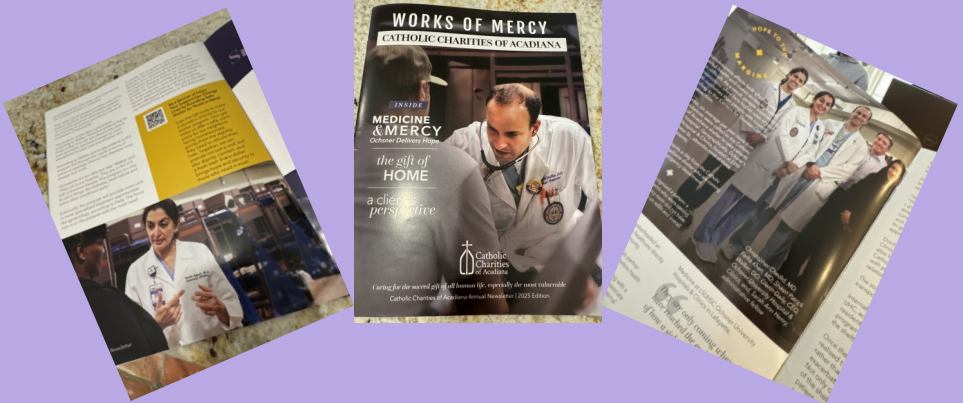

The LSU Department of Medicine Weekly Communication

LSU and UMC welcome the arrival of our very own Ion robotic navigational bronchoscope! With the addition of this state-of-the-art endoscopic platform at UMC, our providers can now reach ANY area of the lung for biopsy. Combined with increased CT screening for lung cancer and the arrival of a thoracic oncology surgeon this summer, our ability to diagnose and CURE early lung cancer at UMC is about to take a quantum leap forward!

Dr. Farha Khan (Lafayette) and colleagues were featured in a recent Catholic Charities of Acadiana magazine, which described the Lafayette IM Homeless Shelter program.

Great job, Team!

Dr. Elyse Stevens (Community & Population Medicine) recently spoke with Next Avenue (PBS) on health benefits of green tea.

Congratulations to Dr. Gala True (Community and Population Medicine) for expansion of The Armory Project's nationally recognized work to another state - Arkansas! - in support of safe firearm storage for veterans and others in times of crisis or need (based on the model she and her firearm retailer partners developed here in Louisiana)!

Saving lives through community-academic partnership, education, and science informing policy decisions!
