TEACHING EXPERIENCE AND RESPONSIBILITIES

Curriculum Development/Implementation:

- 2021 – 2023 Psychology Intern Group Supervision of Supervision,
Department of Psychiatry, LSU Health Sciences Center, New
Orleans, LA
- I co-facilitated this weekly group meeting for LSUHSC
psychology pre-doctoral interns and postdoctoral fellows. In

collaboration with two other LSUHSC faculty members, we developed a curriculum to provide an exceptional training experience using a combination of didactic training, role plays, presentations, assigned readings, and continuous feedback. We created a syllabus and guide that others can utilize to replicate this group model.

Creation of Enduring Teaching Materials:

- 2022 – present Burn Center Specialty Rotation
- Created and adapted teaching materials, including readings, clinical guidance, and resources, to support predoctoral psychology interns in their clinical rotation at the UMCNO Burn Center.

Formal Course Responsibilities:

- 2026 – present Psychotherapy Course - Introduction to ACT
- 16 hours/year, every year
 - Dr. Archie and I created this series of experiential and didactic classes for the Psychiatry (PGY-1) residents. We aim to introduce residents to Acceptance and Commitment therapy so they may use this transdiagnostic approach with their patients.

Undergraduate, Medical, or Graduate Student Research Projects:

- 2021-2025 Co-Investigator, Association between Burn Location and Psychological Distress among adult burn survivors, University Medical Center, Burn Center, IRB #1403
- Collaborated with Dr. Erika Rajo (Principal Investigator), other LSUHSC faculty, and Psychiatry residents Hailey Teachout, Andrew Mercante, and Jackson Mierl to assess the relationship between anatomical location of burn injury and emotional distress using quantitative methods. A manuscript was published.
- 2024-present Primary Investigator, Prevalence and Outcomes of Electrical Burn Injuries among Latino/Hispanic Patients University Medical Center, Burn Center, LSUHSC, IRB# 7537
- Collaborating with Dr. Claudia Leonardi and Mario Rivera, RN to use the American Burn Association's Burn Care Quality Platform database to investigate the prevalence and outcomes associated with electrical burn injuries. Specifically, we are interested in comparing across racial/ethnic groups. A manuscript was submitted for publication.
- 2024-present American Burn Association Clinical Practice Guidelines: Mental Health among Adult Burn Survivors
- At the recommendation of American Burn Association leadership, I am one of the leaders on an expert panel developing this guideline. We are conducting a systematic review of available evidence on mental health screening and intervention for adult burn survivors and will present our findings to inform future research and clinical practice. Medical students across various institutions are part of this process.

Formal Mentoring and Advisor:
