

Documenting the journey

A lung cancer patient's journal

LUNG CANCER INITIATIVE OF NORTH CAROLINA

There is no medicine like *hope*, no incentive so great, and
no tonic so powerful as expectation of something tomorrow.

ORISON SWETT MARDEN

Welcome

Our hope is that this journal will help you better understand and record the decisions that you and your treatment team make, prompt questions to ask your team and outline resources that are available.

We know you won't remember everything you are told during such a hectic time, so use this space as a guide to tracking your treatment information and answering any questions you may have. Understanding your treatment will allow you to be an active participant in your healing.

There is Hope. Research is generating new and better treatment options every day. Our goal is to fuel medical discovery, increase survival and provide a network of hope and action for those affected.

Questions to ask about your treatment

1. What are my treatment options?

2. How long will treatment last? What will it involve?

3. Where will treatment be done?

4. What risks and side effects should I expect?

5. What can I do to reduce the side effects of the treatment?

6. How will treatment affect my daily activities?

7. Will I be able to work during treatment?

8. What should I do to get ready for treatment?

9. Should I change what I eat or make other lifestyle changes?

10. How will we know if the treatment is working?

11. Should I consider a clinical trial?

12. Any new prescriptions related to my cancer diagnosis?

Questions to ask continued

1. Are there support groups available for me and my loved ones?

2. Where can I get financial help?

3. Where can I get treatment-related help such as wigs or transportation to appointments?

4. Do you have a social worker or patient navigator that can help me? Or can you refer me to one?

5. Is there a benefit if I quit smoking now? Are there any resources available to me for smoking cessation?

Medication Notes

Resources

Lung Cancer Initiative of North Carolina

As the state's leading non-profit organization supporting lung cancer research and education, Lung Cancer Initiative of North Carolina specializes in connecting patients, survivors and loved ones with the medical and research community. Our organization's mission is to decrease deaths and provide support to those affected by lung cancer through research, awareness, education and access programs across North Carolina.

www.LungCancerInitiativeNC.org

Clinical Trials

www.clinicaltrials.gov

Patient Advocacy Foundation

Patient Advocate Foundation is a national non-profit organization that serves as an active liaison between the patient and their insurer, employer and/or creditors to resolve insurance, job retention and/or debt crisis matters relative to their diagnosis through case managers, doctors and attorneys. Patient Advocate Foundation seeks to safeguard patients through effective mediation assuring access to care, maintenance of employment and preservation of their financial stability.

www.patientadvocate.org/

Cancer Grace

Cancer Global Resource for Advancing Cancer Education (GRACE) is a nonprofit organization that was developed as a means of improving the overall medical care for cancer patients by democratizing cutting edge information on optimal cancer management and providing it directly to patients.

www.cancergrace.org/lung/

Access to Care Gas Card Program

The Lung Cancer Initiative Access to Care gas card program provides assistance to lung cancer patients while seeking treatment including clinical trials. The goal of the program is to lessen the financial burden for patients to receive appropriate lung cancer treatment by providing gas cards.
