#### 2023 Faculty Annual Performance Evaluations

LSU School of Medicine is devoted to your success and as such, is committed to a performance feedback process for ongoing improvement. Faculty members have received several emails with information related to the Annual Faculty Performance Evaluation Process, one from Human Resources and the

other from the LSU Dean's office outlining the purpose and process. All faculty must have an evaluation form completed by their direct supervisor (Division Head, Chair, Dean, etc.) and submitted to LSU Human Resources.

For Division Heads:

1. Please complete the [evaluation form](#) for each division member using Adobe Acrobat
2. Return to Kelly Allerton ([kslumb@lsuhsc.edu](mailto:kslumb@lsuhsc.edu)) by **March 13th**. (Department must upload all forms by March 15th).
3. To assist with completion, there are training videos and sessions
4. There are 6 categories of performance, of which the first 3 have modifiable percent effort and must total 70%.
5. The score range is 1 - 5; note, a score of 1, 4, and 5 require comments; an overall total score of 5 warrants a second reviewer (Chair signature)
6. Please meet and review with your faculty; both of you must sign the form.

For Faculty:

1. Read the [evaluation form](#) and consider completing a self-evaluation to enhance your professional development.
2. For those of you who do not have a current Division Head, Dr. Desselle will complete your evaluation

Note for all: this does not replace the annual faculty review form which will be conducted at the end of the academic year and is a necessary component of the promotion process.

Contact [Dr. Bonnie Desselle](#) for questions

## National Condom Day

Today is National Condom Day. According to the 2019 Youth Risk Behavior Survey, only 9% of sexually active high school students reported using a condom + a more effective birth control method the last time that they had sex. Additionally, a report from the Guttmacher Institute studying sexual behavior and contraceptive and condom use among U.S. high school students from 2013-2017 found that condom use rates were decreasing, 59% to 54%.
