

LSUHSC Physiology Spring 2024 Seminar Series Speaker	Seminar Title	Date
Taylor Sheahan, PhD University of Pittsburgh School of Medicine	<i>Understanding Neuropeptide Signaling in the Nueral Circuitry of Itch and Pain</i>	Jan 18
Robert Siggins, PhD LSUHSC-NO	<i>The Impact of Alcohol on T Cell Senescence, Mitochondria, and Cell Death</i>	Feb 8
Allie Smith, PhD University of Mississippi Medical Center	<i>The Intersection of Juvenile Traumatic Brain Injury and Overall Health</i>	Feb 15
Emily Newman, PhD McLean Hospital	<i>Dissecting the Neurobiology of Social Flexibility</i>	Feb 22
Falk Lohoff, MD National Institute on Alochol Abuse and Alcoholism	<i>Alcohol, Aging and Epigenetic Clocks</i>	Feb 29
Ritchy Hodebource, PhD Medical University of South Carolina	<i>Cannabis Use Changes Stress Responses by Altering the Tetrapartite Synaptic Plasticity in the Nucleus Accumbens Core</i>	Mar 7
Jessica Barson, PhD Drexel University	<i>Pituitary Adenylate Cyclase-Activating Polypeptide (PACAP) in the Paraventricular Nucleus of the Thalamus (PVT) and Motivated Behavior</i>	Mar 14
Giordano de Guglielmo, PharmD, PhD University of California San Diego	<i>Genetic Factors in Alcohol Use Disorder Using a Heterogeneous Stock Rat Model: From Individual Differences to Medication Development</i>	Mar 21
Heth Turnquist, PhD University of Pittsburg School of Medicine	Spitzer Lecture <i>Understanding the Immune Response to Injury in Transplantation</i>	Mar 28
Harold Haun, PhD University of North Carolina	<i>Septohypothalamic Nociceptin/Orphanin-fq System Modulates Binge-Like Alcohol Consumption</i>	Apr 4
Catherine Cahill, PhD University of California Los Angeles	<i>Impact of Chronic Pain on Opioid Drug Seeking</i>	Apr 11
Sydney Vita, PhD LSUHSC-NO	<i>Effects of Mild Traumatic Brain Injury and Alcohol Consumption on the Adolescent Brain</i>	Apr 18
Christopher Fry, PhD University of Kentucky	<i>Acute Knee Injury Disrupts the Molecular Regulation of Quadriceps Neuromuscular Stability</i>	Apr 25
David Stoltz, MD, PhD University of Iowa Health Care	Physiology Alumni Lecture <i>My Research Journey: From Frogs to Flies to Pigs to Humans</i>	May 2
Nihal Salem, PhD University of Texas Austin	<i>Cell-Type Specific Transcriptomic Changes in Alcohol Dependence</i>	May 9
Keisa Mathis, PhD, FAHA The University of Texas Southwestern	PREP Symposium <i>Neuroimmune Regulation of Inflammation in the Kidney and Its Importance in Hypertension and Lupus</i>	May 23
