

EVOLUTIONARY APPROACHES TO MEDICINE

WHAT DO WE DO?

Participate in guided discussions of papers analyzing topics such as:

- Evolutionary roots of addiction and mental health
- Co-evolution of humans and pathogens
- Antibiotic resistance
- Evolutionary explanations for autoimmune diseases and allergies

Learn from Guest Lecturers!

- Hear unique guest lecture presentations about how evolution has shaped our bodies response to modern medicine

Unmatched Access to Faculty!

- our club has a uniquely high faculty-to-student ratio, creating a casual, collaborative environment to hang out with professors and discuss interesting topics!

FACULTY

Dr. Blythe (mblythe@lsuhsc.edu)
Dr. Mussell (jmusse@lsuhsc.edu)
Dr. Farris (hfarri@lsuhsc.edu)

LEADERSHIP

Liz Carey (ecare1@lsuhsc.edu)
Kat Taylor (ktay16@lsuhsc.edu)
