

Physical Medicine and Rehabilitation Interest Group (PMRIG)

WHAT IS PM&R?

- PM&R, also known as physiatry, is a field of medicine that focuses on treating and preventing conditions affecting the musculoskeletal and nervous systems.
- Physiatrists use nonsurgical techniques to improve patient quality of life, manage pain, restore function, and maximize patient independence in activities of daily living.

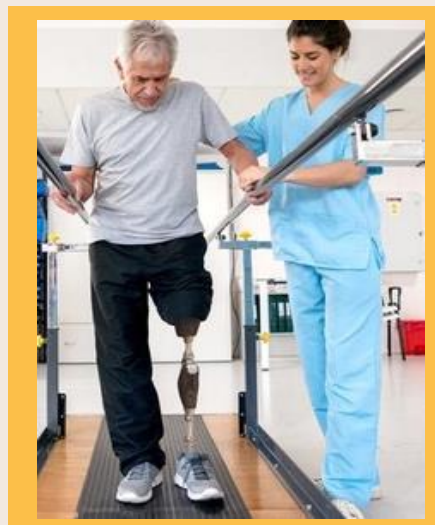

ACTIVITIES

- 2-3 meetings per semester, including subspecialty series & post-match panel
- Hands-on workshops
- Networking & socials
- Community outreach & volunteer events

PM&R Subspecialties

Hospice and Palliative Medicine	Brain/Spinal Cord Injury
Pain Medicine	Pediatric Rehabilitation Medicine
Sports Medicine
